

Seojin Kwon

Quantum Optics and Photonic Devices Research Candidate

seojin.kwon@example.com | Seoul, Republic of Korea | github.com/example-13

FICTIONAL TEST DOCUMENT - all names and details are fabricated

RESEARCH INTERESTS

Quantum photonics, integrated optics, and optical measurement.

EDUCATION

B.S. in Physics - Haedam University (fictional), 2019-2023

- GPA: 4.02/4.50; graduated February 2024. Relevant coursework: Quantum Mechanics, Optics, Electromagnetism, Numerical Methods.

RESEARCH EXPERIENCE

Photonic Systems Laboratory | Research Intern | 2022-2023

- Assisted with supervised optical alignment and maintained calibration records for spectroscopy measurements.
- Processed repeated scans to estimate wavelength-dependent response and identify noisy acquisition runs.

SELECTED PROJECT

Waveguide Coupling Analysis | Department Project | 2023

- Modeled coupling efficiency for a silicon-photonics teaching project and compared sensitivity to alignment offsets.

TECHNICAL SKILLS

Python, MATLAB, optical alignment, data acquisition, OptiSystem basics, LaTeX.

PUBLICATION / PRESENTATION

S. Kwon, 'Sensitivity Analysis for an Integrated Waveguide Coupler,' Physics Department Poster Session, 2023.
(Fictional)
