

Hyeonwoo Moon

Network Science and Computational Social Systems Research Candidate

hyeonwoo.moon@example.com | Seoul, Republic of Korea | github.com/example-11

FICTIONAL TEST DOCUMENT - all names and details are fabricated

RESEARCH INTERESTS

Complex networks, information diffusion, and causal inference.

EDUCATION

B.S. in Applied Mathematics - Bom University (fictional), 2020-2024

- GPA: 4.21/4.50; graduated February 2025. Relevant coursework: Graph Theory, Probability, Statistical Inference, Optimization.

RESEARCH EXPERIENCE

Social Data Methods Group | Research Assistant | 2023-2024

- Prepared anonymized survey-network matrices and reproduced baseline centrality analyses from course readings.
- Tested diffusion simulations under multiple network structures and tracked sensitivity to model assumptions.

SELECTED PROJECT

Campus Information Diffusion | Senior Thesis | 2024

- Simulated message spread in synthetic campus networks and compared intervention strategies with transparent assumptions.

TECHNICAL SKILLS

Python, NetworkX, R, statistical modeling, SQL, Git, LaTeX.

PUBLICATION / PRESENTATION

H. Moon, 'Information Diffusion in Synthetic Campus Networks,' Applied Mathematics Poster Day, 2024. (Fictional)
