

Jiyoong Park

Bioinformatics and Computational Genomics Research Candidate

jiyoong.park@example.com | Seoul, Republic of Korea | github.com/example-04

FICTIONAL TEST DOCUMENT - all names and details are fabricated

RESEARCH INTERESTS

Single-cell rna sequencing, cancer genomics, and reproducible computational biology.

EDUCATION

B.S. in Biological Sciences - Haneul University (fictional), 2022-2026

- GPA: 4.08/4.50; expected graduation: February 2027. Relevant coursework: Genomics, Statistics, Machine Learning, Molecular Biology.

RESEARCH EXPERIENCE

Genome Data Lab | Undergraduate Research Assistant | 2025-2026

- Processed quality-control metrics for 18,000 public single-cell profiles using a documented Scanpy workflow.
- Compared batch-correction settings and prepared cell-type annotation notes for weekly lab review.

SELECTED PROJECT

Tumor Cell Atlas | Course Research Project | 2025

- Built a reproducible pipeline for marker-gene analysis and presented an error analysis at a student symposium.

TECHNICAL SKILLS

Python, R, Scanpy, Seurat, pandas, Jupyter, Git, Linux.

PUBLICATION / PRESENTATION

J. Park, 'Benchmarking Batch Correction for Public scRNA-seq Data,' Undergraduate Research Poster, 2026. (Fictional)
