

Sora Choi

Climate Informatics and Urban Resilience Research Candidate

sora.choi@example.com | Seoul, Republic of Korea | github.com/example-06

FICTIONAL TEST DOCUMENT - all names and details are fabricated

RESEARCH INTERESTS

Urban heat islands, satellite remote sensing, and climate-risk communication.

EDUCATION

B.S. in Environmental Engineering - Saebyeok University (fictional), 2020-2024

- GPA: 4.15/4.50; graduated February 2025. Relevant coursework: Environmental Data Analysis, GIS, Hydrology, Statistics.

RESEARCH EXPERIENCE

City Climate Observatory | Data Analyst Intern | 2023-2024

- Cleaned and merged hourly records from 32 weather stations for a seasonal urban heat review.
- Created weekly heat-risk summaries that paired temperature anomalies with neighborhood-level indicators.

SELECTED PROJECT

Neighborhood Heat Map | Senior Capstone | 2024

- Combined Landsat temperature proxies with park-access data to identify priority zones for a mock resilience plan.

TECHNICAL SKILLS

Python, QGIS, GeoPandas, rasterio, SQL, statistics, data visualization.

PUBLICATION / PRESENTATION

S. Choi, 'Mapping Neighborhood Heat Exposure with Open Data,' Environmental Data Symposium, 2024. (Fictional)
