

Eunseo Kang

Systems Security and Privacy Engineering Research Candidate

eunseo.kang@example.com | Seoul, Republic of Korea | github.com/example-08

FICTIONAL TEST DOCUMENT - all names and details are fabricated

RESEARCH INTERESTS

Web security, privacy-preserving analytics, and secure software design.

EDUCATION

B.S. in Computer Science - Nuri University (fictional), 2019-2023

- GPA: 3.84/4.50; graduated February 2024. Relevant coursework: Network Security, Operating Systems, Databases, Software Engineering.

RESEARCH EXPERIENCE

Example Labs Korea | Software Engineer | 2023-2026

- Added access-control regression tests for internal developer tools and documented expected authorization behavior.
- Automated dependency-audit reports for weekly engineering review without exposing source credentials.

SELECTED PROJECT

Privacy Review Toolkit | Personal Research Prototype | 2025

- Designed a checklist-driven scanner for mock API specifications to flag unnecessary personal-data collection fields.

TECHNICAL SKILLS

Python, TypeScript, OWASP ASVS, Docker, SQL, GitHub Actions, Linux.

PUBLICATION / PRESENTATION

E. Kang, 'A Lightweight Privacy Review Workflow for API Design,' Security Engineering Meetup, 2025. (Fictional)
